

## **Campus Planning Committee Meeting Notes**

Meeting Date: June 9, 2025

Members Present: Bryan Garter, David Hensley, Corey Landstrom, Dusty Persinger, Scott Spak, Carissa Vogel, Michael Voss

Others: Shawn Albaugh Kleppe, Joe Bilotta, Caroline Cole, Mike Kearns, Ryan Smart (Invision), Adele Vanarsdale, Chet Wieland

---

### Baseball Press Box Reconstruction

The second phase of the renovation of the Duane Banks Field project will focus on the Press Box. Renovation to the Press Box will provide for space for Game Day operations, installation of an elevator, and roomier main seating in the bowl area. Façade features will pull from other area facilities and include a backlit Hawkeye Logo.

Discussion included flexibility for future expansion, any changes to current concessions or restroom configurations, decreased seating capacity resulting in better views of the field, and timing of the project.

### Water Tower Replacement

This project has been brought before CPC previously, however review of imaging and branding needs reviewed. The design showed two block Iowa and one Hawkeye placed on the tower halo centered over every other rib with the Hawkeye facing the stadium.

Discussion included the tower's capacity and whether that will service to support future campus expansion and the timing of switching use of towers.

### Campus Improvement Plans

Updated lists of Building Improvement Plan (BIP) projects and Site Improvement Plan (SIP) projects were shared. The process for prioritizing these projects was again reviewed.

Discussion included clarification on general funded projects versus State funded projects, process changes at the State (BOR) level that impact funding disbursement, and taking advantage of funding from other aligned projects for efficiencies.
