

Campus Planning Committee

Meeting Notes

Meeting Date: April 13, 2026

Members Present: Bri Bakken, Michael Flatte, Bryan Garter, Dusty Persinger, Scott Spak, Michelle Voss

Others: Shawn Albaugh Kleppe, Farrukh Bashir, Joe Bilotta, Ryan Dehart, Jennifer Hoffman, Crystal Holowell, Michael Kearns, Catie McClurg, Michael Kelly, Victor Ritter, Adele Vanarsdale, Debbie Zumbach

Plaza Parking Ramp – Replacement Facility

The design schematics for replacement of the Plaza Parking Ramp were shared. Orientation of this facility will be North and South on the current site. Capacity at the new facility will increase to 450 from the current capacity of 331. Design features include a kinetic wall on the West side of the facility.

Discussion included the robustness of the kinetic wall panels, as well as it being a potential distraction for drivers; bicycle and scooter parking and how numbers of these spaces were derived; stall spacing and how it is designed large enough to accommodate ADA vans; losing the entrance to the parking facility from the plaza drop-off that is being discouraged due to pedestrian/vehicle interaction; pathways around facility to medical services; any formal approval with the city or neighborhood; and attention to be given to the treescape and area planters to create a more residential feel.
