

Goals and Objectives

Expand the bikeway infrastructure to improve mobility.

- Strengthen and expand the bikeway network and improve interconnectivity amongst Coralville and Iowa City systems.
 - Provide an East-West bike path to connect campuses
 - Coordinate design for seamless transitions
- Establish wayfinding through sound sight lines, system design, and signage.

Improve the integration of bikeways, motor vehicles, and pedestrian systems.

- Place adequate bicycle parking at a safe distance from building entries and in a way that does not conflict with pedestrian movement.
- Create a variety of bike parking options to support program needs
- Employ appropriate levels of shared and dedicated bikeway systems.
- Improve intermodal intersections

Promote increased bicycle use and reduced dependency on motorized vehicles.

- Increase ridership
- Place an emphasis on resources that improve commuter use.
- Improve one's experience using the bikeways system and take advantage of site assets
 - Iowa River
 - Open spaces
 - Event spaces
- Establish an on campus bike share program

Establish a sustainable bikeway system physically, operationally, and economically

- Continually educate the University community regarding the bikeway system.
- Enforce policies, procedures and regulations for biking.
- Establish ways to increase funding.
- Create an operating plan that includes continued maintenance of improved bikeway infrastructure.
